

AWARD-WINNING LOOKS

Yippee! It's awards season and we've rounded up the best and worst 'dos on show at the Grammys and the BAFTAS...

The GRAMMYS

We went Stateside with all those muso types...

LOVES IT! ✓

Rihanna

We love this, girly ombre look on our fave hair chameleon.

LOVES IT! ✓

Taylor Swift

Taylor's super cute braid reminds us of Kylie circa 2001.

Beyonce

This classy, simple style should work on Queen Bey, but there's a little too much pony in that tail. Naaay we say!

HELL NO! ✗

Jennifer Lopez

We love a good topknot when we haven't had time to wash our hair. But this isn't a 'good' topknot and frankly we'd expect more from J-Lo, particularly for a red carpet bash...

HELL NO! ✗

The BAFTAS

Meanwhile, back in Blighty there was a jolly good knees-up...

Anne Hathaway

The perfect cut and colour to accentuate perfect features. Audrey Hepburn would be proud.

Paloma Faith

If we were really cynical we'd think Paloma sported this pretzel hairdo to nab more column inches...

Jessica Chastain

A shiny, Jessica Rabbit-esque mane is the perfect starlet style. Gorgeous colour!
